About RMS

The Ramanujan Mathematical Society (RMS), founded in 1985, has the main purpose of promoting Mathematics at all levels. All through these years, the Society has received immense support from Mathematics Fraternity both in India and abroad, due to which the Society has succeeded in expanding its wings multifold in its efforts to promote Mathematics. RMS organizes annually a National Conference and also publishes Lecture Notes Series in Mathematics, Mathematics Newsletter, and Journal of Ramanujan Mathematical Society. The 33rd chapter of the conference is to be hosted by The Department of Mathematics, University of Delhi.

Aims and Objective of the Conference

- To contribute to the recent development in the various fields of Mathematics such as Algebra, Number Theory, Cryptography, Bio-informatics, Differential Equations, Dynamical System, Frames and Wavelets, Function Theory, Harmonic Analysis, Optimization, Topology & Geometry and Mathematics Education.
 - To bring together academicians in these areas from across the country /abroad to exchange ideas and discover the thrust area of current research.
 - To discuss the challenging problems and focus on future collaborations and to expose young researchers to recent research.
 - Panel discussion on teaching of mathematics.
- All this will be done in the form of parallel symposium, Plenary, invited and contributory talks.
